OFFICE OF PETITIONS

In re Application of	:
Neal et al.	:
Application No. 10/828,836	: DECISION ON PETITION
Filed: 21 April, 2004	:
Attorney Docket No.:1505800-050745	:

This is a decision on the petition filed on 11 January, 2005, under 37 C.F.R. §1.47(a).

The petition is **DISMISSED**.

NOTES:

- (1) Any request for reconsideration of this decision must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 C.F.R. §1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition under 37 C.F.R. §1.47(a)."
- (2) There will be no further reconsideration thereafter.

BACKGROUND AND ANALYSIS

The record reflects that:

- the instant application was filed on 21 April, 2004, absent, *inter alia*, a fully executed oath/declaration;

- on 8 July, 2004, the Office mailed a Notice of Missing Parts;
- on 11 January, Petitioner replied (with a request and fee for extension of time) with an oath/declaration signed by Messrs. Neal and Dietz, but without the signature of non-signing inventor Daniel R. Smith (Mr. Smith), and with a statement by Petitioner Richard M. Mescher (Reg. No. 38,242) and statement by Dominic Federico (President and CEO of the alleged assignee), which latter statement clearly indicates that Petitioner has failed to transmit to the non-signing inventor Mr. Smith a copy of the entire application (description, claims, abstract and drawings).

ANALYSIS

Where a refusal of the inventor to sign the application papers is alleged, the circumstances of the presentation of the application papers and of the refusal must be specified in a statement of facts by the person who presented the inventor with the application papers and/or to whom the refusal was made. Statements by a party not present when an oral refusal is made will not be accepted.

The commentary at MPEP §409.03(d) provides:

409.03(d) Proof of Unavailability or Refusal

INVENTOR CANNOT BE REACHED

Where inability to find or reach a nonsigning inventor "after diligent effort" is the reason for filing under 37 C.F.R. §1.47, a statement of facts should be submitted that fully describes the exact facts which are relied on to establish that a diligent effort was made.

The fact that a nonsigning inventor is on vacation or out of town and is therefore temporarily unavailable to sign the declaration is not an acceptable reason for filing under 37 C.F.R. §1.47.

Furthermore, the fact that an inventor is hospitalized and/or is not conscious is not an acceptable reason for filing under 37 C.F.R. §1.47. 37 C.F.R. §1.43 may be available under these circumstances. See MPEP §409.02. Such a petition under 37 C.F.R. §1.47 will be dismissed as inappropriate.

The statement of facts must be signed, where at all possible, by a person having firsthand knowledge of the facts recited therein. Statements based on hearsay will not normally be accepted. Copies of documentary evidence such as internet searches, certified mail return receipts, cover letters of instructions, telegrams, that

support a finding that the nonsigning inventor could not be found or reached should be made part of the statement. The steps taken to locate the whereabouts of the nonsigning inventor should be included statement of facts. It is important that the statement contain facts as opposed to conclusions.

REFUSAL TO JOIN

A refusal by an inventor to sign an oath or declaration when the inventor has not been presented with the application papers does not itself suggest that the inventor is refusing to join the application unless it is clear that the inventor understands exactly what he or she is being asked to sign and refuses to accept the application papers. A copy of the application papers should be sent to the last known address of the nonsigning inventor, or, if the nonsigning inventor is represented by counsel, to the address of the nonsigning inventor's attorney. The fact that an application may contain proprietary information does not relieve the 37 C.F.R. §1.47 applicant of the responsibility to present the application papers to the inventor if the inventor is willing to receive the papers in order to sign the oath or declaration. It is noted that the inventor may obtain a complete copy of the application, unless the inventor has assigned his or her interest in the application, and the assignee has requested that the inventor not be permitted access. See MPEP § 106. It is reasonable to require that the inventor be presented with the application papers before a petition under 37 C.F.R. §1.47 is granted since such a procedure ensures that the inventor is apprised of the application to which the oath or declaration is directed. *In re Gray*, 115 USPQ 80 (Comm'r Pat. 1956).

Where a refusal of the inventor to sign the application papers is alleged, the circumstances of the presentation of the application papers and of the refusal must be specified in a statement of facts by the person who presented the inventor with the application papers and/or to whom the refusal was made. Statements by a party not present when an oral refusal is made will not be accepted.

Proof that a bona fide attempt was made to present a copy of the application papers (specification, including claims, drawings, and oath or declaration) to the nonsigning inventor for signature, but the inventor refused to accept delivery of the papers or expressly stated that the application papers should not be sent, may be sufficient.

When there is an express oral refusal, that fact along with the time and place of the refusal must be stated in the statement of facts. When there is an express written refusal, a copy of the document evidencing that refusal must be made part of the statement of facts. The document may be redacted to remove material not related to the inventor's reasons for refusal.

When it is concluded by the 37 C.F.R. §1.47 applicant that a nonsigning inventor's conduct constitutes a refusal, all facts upon which that conclusion is based should be stated in the statement of facts in support of the petition or directly in the petition. If there is documentary evidence to support facts alleged in the petition or in any statement of facts, such evidence should be submitted. Whenever a nonsigning inventor gives a reason for refusing to sign the application oath or declaration, that reason should be stated in the petition.

Thus, not only must a copy of the entire application must be sent to the last known address of the non-signing inventor (or the estate representative) with a request that he/she sign the declaration for the patent application—and evidence of that transmittal submitted (a reasonable effort must be made to ascertain a current or last known address)—but also the petition (with fee) must state over the signature and registration number of the Petitioner the last known address (and, if appropriate, evidence of the due diligence effort ascertaining same).

Alternatively, an oath or declaration for the patent application in compliance with 37 C.F.R. §§1.63 and 1.64 must be presented.

The declaration must set forth the inventor's residence, citizenship and post office address. An oath or declaration in compliance with 37 C.F.R. §§1.63 and 1.64 signed by the Rule 1.47 applicant is required.¹

CONCLUSION

Therefore, the instant petition hereby is **dismissed**.
